GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

Trouble with Spotted Tail's Indians.

SIOUX CITY, Iowa, Oct. 28.—A report has been received that Spotted Tail's Indians in southwestern Dakota had a serious outbreak last week. A warrior shot Henry Young an agency employe, claiming that his heart was bad from mourning for his sister's death. Agent Newell arrested the Indian, and during the entire night his comrades from the hills fired on the camp and eventually compelled Newell to surrender him. The Indians then removed the escaped warrior. The troops are 178 miles away.

Fire in a Tunnel.

CUMBERLAND, Md., Oct. 17.—The fire in Pinkerton Tunnel, Pittsburg and Connellsville railway is still burning with no likelihood of being extinguished soon. A portion of the tunnel has caved in.

Declines to Run.

NEW ORLEANS, Oct. 28.—Col. Gillespie, nominee for lieutenant-governor, refuses to allow his name to be put on the republican ticket.

Fatal Explosion.

GORHAM, Me., Oct. 28.—The corning mill of the Oriental powder mills exploded this afternoon. A man named Stokes was killed and Stanton Maberry was seriously injured. The cause is unknown.

The Conference of Bankers.

NEW YORK, Oct. 28.—It is stated that the real object of the conference of bank presidents yesterday was to devise plans to check the enormous inflation of stocks now going on. Within the past week brokers have been forced loans from banks after the close of business on stock exchange. Exchanges at the clearing house amounted yesterday to $172,600,000, and the balances were more than six millions. Certifications at the bank of New York Saturday exceeded twenty-six millions. To reduce the labor expenses and risk of these certifications, several plans have been proposed. It is believed that a clearing house for some of the active stocks might be successful. Some persons favor the adoption of the English custom of fortnightly settling.

Wrecked in Lake Michigan.

DETROIT, Oct. 28.—A dispatch just received from Grand Haven, Michigan, states that the steamer *Amazon* of the Northwestern Transportation Co's line for that port from Milwaukee, with about 50 passengers and a heavy load of wheat and other freight, while attempting to cross the bar at the entrance to the harbor there at 8 A. M., ran on the bar. She succeeded in backing off and returned a few miles into the lake, again attempted to enter and again struck the bar and was driven around the end of south pier and ashore by heavy seas and strong northwest wind. She lies within 100 feet of the pier, broadside to the sea with the spray dashing over her. Her passengers are being taken ashore by the saving crew. The crew are throwing the cargo overboard, as the steamer is evidently going to pieces.

Everything Lovely at Memphis.

MEMPHIS, Oct. 28.—No new cases have been reported within the past twenty-four hours. Refugees continue to return in large numbers. [illegible] report a marked improvement in [illegible]. Weather clear and pleasant.

The St. L. & S. F. R. R.

ST. LOUIS, Oct. 28.—Judge Baker, vice president of the St. Louis & San Francisco Railway, just returned from New York, says that preliminary arrangements are now being made for the completion of the above named road from Vinita, Indian territory, its present terminus, to the Pacific ocean. Also that [illegible] of German capital at 5 per cent. is ready to construct the road. If this arrangement is completed, the road will be built on the land grant originally given by Congress to the Atlantic & Pacific Railway.

Whisky's Work.

[illegible], Oct. 28.—A shocking tragedy occurred in this city yesterday, resulting in the death of two men. A negro named Monroe entered a saloon and called for liquor, being evidently drunk the barkeeper put him out. He went to the sidewalk, and began talking very loud and making threats. Policeman Lewis Chew came up and attempted to arrest him, when the negro took deliberate aim at the officer and shot him through the abdomen. As he fell, drew his revolver and shot the negro, the ball entering just above the [illegible]. The negro fell, and died in a few [illegible]. Officer Chew died at half-past 2 [illegible].

Fatal Railroad Accident.

An accident occurred on the Chicago, Rock Island and Pacific railroad near this city yesterday. An engine containing five persons left the track and turned over in a ditch. [illegible] Adams, a telegraph operator, was killed and the others badly scalded. J. C. Mull, a [illegible], and N. W. Holmes have since died. Holmes has been superintendent of [illegible] on the road for several years.

An Interesting Decision.

DUBUQUE, Iowa, Oct. 28.—The state supreme court to-day rendered a decision in the case of Sarah W. Stanley vs. The City of Davenport, which created considerable excitement as it will affect every city in the state in which street railways are allowed. The plaintiff was injured by her horse being frightened by the engine of a street railway and running away. She sued the city and the court below rendered judgment against her. The supreme court reverses it, holding the city liable for all damages to persons or property by the running of a steam motor, since a city has no authority to convey the title to streets or authorize their use for a private purpose, nor for a public purpose, except by legislation, which renders it dangerous to public travel.

WASHINGTON CITY.

A Lofty Event.

WASHINGTON, Oct. 28.—Mrs. Hayes, Webb Hayes and Miss Fannie Hayes, leave here this evening for New York to attend the wedding of Gen. J. S. Fullerton, of St. Louis, and Miss Morgan, daughter of ex Governor Morgan of New York.

Preparing to Receive Grant at Washington.

A committee of 100 citizens of the district has been appointed to co-operate with the society of the Army of the Cumberland in carrying out its programme, and for a reception to Gen. Grant, should he visit Washington when the society meets.

Ballot Box Stuffer Pardoned.

[illegible] Eddins, convicted of ballot box stuffing in the western district of Tennessee, was pardoned to-day.

The President and Cabinet Visit the National Fair.

WASHINGTON, Oct. 28.—The cabinet assembled at the executive mansion at noon and, accompanied by the president, soon left for the national fair grounds.

Attending to his Duty.

The comptroller of the currency has written to the national banks in New York, whose average reserve for the week ending October 25, is shown by the clearing house statement to have been below the legal requirements, to report to him the present state of their accounts, and directing them, if still deficient, to make it good as required by law.

Grant Invited to Visit Hayes at the White House.

WASHINGTON, Oct 28.—President Hayes has sent a telegram to Gen. Grant inviting him to be the president's guest when he visits Washington. Gen. Sherman has [illegible] a dispatch from Gen. Grant saying [illegible]

BY ATLANTIC CABLE.

A New Revolutionary Journal in Russia.

[illegible]

Afghanistan.

[illegible], Oct. 28.—General [illegible] a visit from the [illegible] who promise friendship. [illegible] again been repulsed by the British force [illegible] the Shutargardan pass.

German Finances.

BERLIN, Oct. 28.—The speech from the throne at the Prussian diet, declares that the deficit in estimates, expected to result from changes in the system of imperial taxation, in view of the present financial state of affairs to an appreciable extent, affect estimates for next year. The principal measures announced comprise a loan for covering the deficit, [illegible] applying the surplus of imperial increase to the reduction of the income tax, and a bill for the taxation of retail trade.

How Rosenberg will be Treated.

LONDON, Oct. 28.—Adolphus Rosenberg, convicted of libels upon Mrs. Langtry, Mrs. Cornwallis West and Lord Londesborough, was to-day again placed in the dock at the old Bailey, and Justice Hawkins said that it appeared to be the impression that the prisoner would be treated as a first class misdemeanant, able to receive his friends and furnish his own maintenance. This, said the justice, is incorrect. Rosenberg will be treated the same as any other prisoner.

Operations at Shutargardan Pass.

LONDON, Oct. 28.—A dispatch from Kushi announces the arrival there of a convoy from Shutargardan. The officer in command states that there has been hard fighting at the latter place for several days, and that many of the enemy have been killed. Snow is already beginning to fall in the hill districts.

Requested to Leave France.

PARIS, Oct. 28.—It is reported that Don Carlos will be requested to leave France in consequence of his reception of and other public interchange of courtesies with army officers, some of whom have been subjected to army discipline for the same cause.

Rowing Matters.

LONDON, Oct. 28.—Hanlan has been sent a formal demand for the return of the Challenge cup. Meanwhile the trustees have been invited to consider Elliott's proposal to include the cup in his race with Boyd.

Preparing for Trouble.

The corvette *Cormus* and sloop-of-war *Albatross*, it is understood, will proceed to the China station as soon as they are ready for sea, in view of the pending rupture between China and Japan and the friendly attitude of Russia towards China.

Opposing Confessions.

George Montague, alias John Henderson, on committal to Maidstone jail, who confessed that in July, 1877, at Baltimore, he murdered a fellow-soldier, named Henry Saunders, by stabbing him, and afterwards threw the body in a well, yesterday, on completing his term of imprisonment, was re-arrested and was held to await the action of the American authorities. He now says that the confession was a falsehood, concocted to avoid being imprisoned here.

MARK LANE REPORT.

Most of the Crop Gathered and Some Fall Sowing Done—The Condition of the Market.

[SPECIAL DISPATCH TO THE OREGONIAN.]

LONDON, Oct. 28—The *Mark Lane Express* says that field work has progressed satisfactorily, and except in the latest districts, the remainder of the crops has been gathered and something done towards winter sowing. The condition of later cereals is deplorable, and the loss thereon heavy. Very little of the wheat is yet fit to thresh. Roots fall far short of an average crop.

Supplies of English wheat at country markets was slightly larger, and in some instances samples were in rather better condition; but as a rule the quality indicates a desire on the part of farmers to market their interior produce, which is cleared out more easily and profitably during existing times. Finer qualities, where they exist, can be safely counted upon to realize their full market value whenever growers see fit to part with them.

Foreign wheat continues to reach our shores in considerable quantities, Friday's list of imports showing the arrival of nearly 70,000 quarters, and with more disposition on the part of holders to realize.

The rapid upward movement of prices appears to have been arrested. The question arises, what proportion of the fifteen shillings rise which has taken place can be maintained when the speculative movement ceases and the more legitimate influences of supply and demand are once more paramount in the trade? Taking into consideration the enormous resources of America, and the fact that present prices of wheat at London are sufficient to attract and have attracted supplies from all wheat exporting countries in the world, it appears most probable that a safe basis for future operations will be reached when values have receded 5@6 shillings from the recent highest point. It would be too much to assert that prices must necessarily give way to this extent as trade closes in very sensitive conditions, and much will depend upon the action of America. But the opinion is nevertheless offered that the reduction indicated would bring values to a safe position.

The sales of English wheat last week were 35,617 quarters, at 49s 1od, against 50,434 quarters at 39s, during the corresponding week of last year. Imports into the United Kingdom during the week ending October 18th, were 1,881,766 cwts of wheat and 238,900 cwts of flour.

CANADA.

A Woman and her Child Killed.

HAMILTON, Ont., Oct. 28.—While walking on the Hamilton and Northwestern railroad track to-day, Mrs. Tabb was struck by an engine and fatally injured. Her infant, in her arms, was instantly killed.

Punishment of Cussedness.

[From the Chicago Times (Ind.).]

It is quite likely that after the November elections the Bourbon family will be prepared to shift their ground somewhat on the state-sovereignty question. It is hardly probable that they will resume the starvation programme, and they will be quite as likely to attempt to change the elections law as to persist in the attempt to repeal it altogether. They may even abandon the programme they have already mapped out of unseating two or three members of the house in order to make sure of a majority by states in a case of failure to choose a president next year by the electoral vote. A few more partisan performances of that kind, and a further execution of the starvation programme, will insure the defeat of the Bourbon candidate by the electoral vote, and insure the election of a republican house next fall, and of republican legislatures in at least five, and probably six, states, where senators are to be chosen a year from next winter. Persistence in the policy of cussedness will surely cost the Bourbons their ascendency in both houses of congress and insure their defeat in the presidency contest. If they are not hopelessly depraved or demented, they will abandon that policy utterly and conduct themselves like civilized beings during the next session.

A White Man's Government.

At Blackville, S. C., the chivalry don't like to have a "d—d nigger" for postmaster; so they tried to murder him. The Okolona (Miss.) *States* has this about it:

Fred Nix, Jr., postmaster of Blackville, S. C., is a black; and he says that he has been bulldozed.

Nixy ought to know that this is a white man's government for white men, and that a negro is out of place behind a postoffice window.

Let him learn this little fact by heart,
Resign,
Retire,
and he need have no further fear of the fulsome bullet or the festive blade.

Key removed a southern lady from the Blackville postoffice to make room for this "cullud cuss from Africa."

This was intended as an insult to the proud and spirited citizens of Blackville.

And if they have resented the insult they should receive the plaudits of every patriot in America who has one drop of the old revolutionary blood in his veins.

Big Chief—No Work.

A Colorado paper says that Piah, one of the Ute chiefs, said to Gov. Pitkin some time ago:

[illegible]

[illegible] Senator Hill represents a feeling which is general among such southern men as have been here since the Ohio election, that unless the democracy can carry New York this fall there can be nothing to hope for in the presidential campaign. He is urging an adjustment between Robinson and Kelly in the name of all the democrats of the south.

THE PACIFIC COAST.

CALIFORNIA.

Suicide.

SAN FRANCISCO, Oct. 28.—Last evening B. Watson, formerly driver of truck No. 1 of the fire department, shot himself in his room 502 Mission street, last night, dying in a few moments. He left a note to his family requesting the disposition of his effects and stating that he was a native of St. Johns, New Brunswick, and aged 50.

A Serious Charge.

F[illegible] O'Brien and James M. Duff were arrested yesterday on charges of perjury in connection with the case of Dudley H. Haskell, who shot and killed Charles Schwartz recently. The prisoners made affidavits that they were engaged by Henry Schwartz, a brother of the deceased, and others, to swear falsely in order to convict Haskell of murder.

Operations of a Chinese Steamship Company.

SAN FRANCISCO, Oct. 28.—News has been received by the *City of Peking* from China that the Chinese Merchants Steamship Company is going putting on a line of steamers to Honolulu and that they will probably continue the route to this port. The company is very wealthy and under able management, and has already succeeded to a great extent in crowding out foreign steamship lines on the Chinese coast.

Double Suicide.

SAN FRANCISCO, Oct. 28.—A dispatch from Oakland says that at the Nicoll House, Oakland, at 8:30 last evening, Herbert Benson and Frankie Woodward both committed suicide by shooting themselves with the same pistol, the man killing himself first. It was a premeditated deed, as both had threatened to kill themselves. Nothing is known of the cause of trouble.

STRIKE IN SAN FRANCISCO.

ALL THE CABINET MAKERS IN THE CITY QUIT WORK.

A Twenty-Five Per Cent. Increase of Wages Demanded.

[SPECIAL DISPATCH TO THE OREGONIAN.]

SAN FRANCISCO, Oct. 28.—Yesterday the cabinet makers of the city held a meeting and resolved to strike to-day if their demand for an increase of twenty-five per cent. was not complied with. They give as the cause of their grievance that it is impossible for them to live on the present rate of wages. The piece system which they denounce consists in paying each workman by the dozen for bedsteads, bureaus, tables, etc. Prices vary in the different factories according to the amount of machine work done, workmen in some being called upon to prepare woodwork, while in others it is given them partly prepared to be put together. They claim that good workmen cannot make over $8 per week.

This morning the movement was begun by the employes of the West Coast factory, at the corner of Fourth and Bryant streets, who in a body, with flags flying, marched to Grant's factory on Brannan street, near Sixth, where they were joined by the hands there who numbered 25 men. The procession then marched successively to Craggen's factory on Brannan street, between Sixth and Seventh, where 25 more strikers were added; then to L. & E. Emanuel's factory, on Berry street, between Fourth and Fifth, where 40 men joined; thence to Fry's, on King street, between Third and Fourth streets, and to the San Francisco factory, opposite, where the employes of these two factories, numbering about 40 men, joined in. The strikers then proceeded out toward south San Francisco, taking in all factories and small workshops in that locality, the men from which all stopped work to a man. All these cabinet makers belong to the trades' assembly, and during the continuance of the strike will receive $9 and $6 per week for married and single men respectively. There are two branches of the union, one of which is German, and indications are that there will be a general strike among them.

THE NEW PROJECT.

Plan for Building the Esquimalt Dry Dock and the Yale-Savona Railroad—Contracts to be Let Immediately and Work Commenced.

[SPECIAL DISPATCH TO THE OREGONIAN.]

VICTORIA, Oct. 28.—Intending contractors for the dry dock and Yale-Savona railway are in town. The railway work is divided into four sections: Section 1, from Emery to Boston Bar is to be completed by Dec 31, 1883; section 2, Boston Bar to Lytton, by June 30, 1884; section 3 from Lytton to Junction flat by Dec. 31, 1884; section 4, from Junction flat to Savona by June 30, 1885. No tender will be entertained unless on one of the printed forms prepared for the purpose, and with the schedule of quantities correctly priced and accurately moneyed out, nor unless an accepted bank cheque for $5000 for each section accompanies the tender. These cheques will in each case be forfeited if the party tendering declines or fails to enter into the contract for the works when called upon. In the event of a tender not being accepted the cheque will be returned. To each tender must be attached the signature of two respectable and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of the contract. So soon as a tender is accepted the parties concerned must be prepared, immediately after being notified, to enter into the contract and give security for the due fulfillment of the same by deposit of money or its equivalent in value at current rates of public securities or bank stocks, to the amount of five per cent. on the bulk sum of the contract, of which the sum sent in with the tender will be considered a part. The work on each section is to be commenced and proceeded with as soon as practicable after the person or persons whose tender may be accepted shall have entered into the contract.

WASHINGTON TERRITORY.

A Puget Sound Cargo.

SEATTLE, Oct. 28.—The P. M. S. S. Co's steamship *Chiao* sails hence to-morrow morning for Victoria and San Francisco. She will take a good passenger list and the following freight from several sound ports: 11,000 sacks of grain; 75 tons of which is wheat and the balance oats; 2300 cases of canned salmon; 150 half barrels of salmon; 8 whole barrels of salmon; 40 barrels of porter from A. Slorah & Co.; 400 tons of staves and barrels; 530 bales of hops; 30 tons of waterpipe; 20 tons of miscellaneous freight.

Fatal Accident.

PORT TOWNSEND, Oct. 28.—David W. Anderson, a logger on Whidby Island, opposite Port Ludlow, accidentally shot and killed himself to-day while cleaning a gun in a shed adjacent to his dwelling house. He leaves a widow and four children.

Masonic Excursion.

The steamer *Mary Taylor* has been chartered to carry a number of Scottish rite masons to Port Blakely to-morrow to install the officers in the lodge of Perfection.

THE WHITE RIVER SLAUGHTER.

Additional Statements from the White Women now at Ouray's House—The Massacre Committed by Douglas' Men and the Open Fighting by Jack's Party.

Causes of the Outbreak—Attempt to Kill Mrs. Meeker and her Companions—Kindness of Ouray's Sister Susan—General Matters.

[SPECIAL DISPATCH TO THE OREGONIAN.]

LOS PINOS, Col., Oct. 24.—Just arrived from Indian camp on Plateau creek. The women and children of the White river agency are safe at Chief Ouray's house. They stood the journey well and Mrs. Meeker has improved in health every day since we started. We left on the morning of the 21st. The Indians seemed unwilling for us to leave until they learned what success Gen. Adams had in stopping the further advance of Merritt's command. The Meeker papers were burned and what money Mrs. Meeker had was taken from her by Douglas. The intention was to kill the women and children, as the windows of the room in which they first took refuge were riddled with bullets the instant they had left it for a more secure place in the milk room. Mrs. Meeker thinks that Susan, a squaw, and the wife of Chief Johnson, sister of Ouray, did more than all others to save their lives. She was as kind to them as a mother, and their parting was very touching. Jack's band fought the troops and Douglas' men killed the agent and employees. Agent Meeker was killed by Antelope and Wanpattito; Mrs Meeker was shot at while running from the house and attempting to hide in a clump of sage brush. The ball passed through her dress and made a slight flesh wound in the thigh about four inches long.

Arrangements for the fight with Merritt's command were most complete. Two hundred Arapahoes had joined Jack and many others from neighboring tribes. Had it not been for the timely arrival of Chief Ouray's order to cease fighting, the name of Merritt and his command would have passed in history by the side of Custer with the same epitaph—"Annihilation by Indians."

The outbreak may be attributed to four things, viz: Repeated changes and lessening the amount of rations issued to Indians; no head chief, the same as Ouray is here; the Ute Indian interpreter was unfriendly to Meeker; and plenty of bad whisky was furnished by ranchmen. Major Pollock is here doing all in his power to make the ladies comfortable and looking after the interests of the department in general.

THE NORTHWEST.

Eastern Oregon.

Heppner, it is said, will soon have a brewery and a newspaper.

The roads in Union county have been very much improved recently.

One hundred and twenty children attend the public school at Union.

Seventy-nine persons registered at the principal hotel in Pendleton during three days of last week.

Three Chinamen are now in jail at Union, charged with the murder of a Chinawoman near Sparta a short time ago.

Charles Heimer, who formerly resided in La Grande, was recently sentenced to be hanged on the 28th of November, at Winnemucca, Nevada.

A fire company has been organized at Pendleton. Following are the officers: J. F. Dunn, chief; Wm. Mays, foreman; Lot Livermore, president; D. W. Bailey, secretary; S. Rothchild treasurer.

Lieut. Farrow was given a grand reception at Pendleton last week. The tables of the Pendleton hotel, says a local paper, fairly groaned with good things to eat till the good things were eaten, when the groan was transferred to the guests.

There are bad people in Umatilla county as everywhere else in the world. Samuel George bought a lot of young cattle some months ago and left them on the range, whereupon some enterprising person whose initials are M. L. decorated the aforesaid cattle with his monogram. Mr. George will have his stock or will have a fuss.

Mr. D. A. McAllister, while riding in Union county last week, came upon a wild cat and lassoed it, whereupon, instead of pulling back, the "critter" made for the horse and rider. Mr. McAllister was compelled to secure the rope to the pummel of his saddle and urge his horse at a break-neck speed over a sand ridge a distance of four miles, not caring to release his pet until he was sure he could do it with safety.

A Pendleton paper says: Farmers north of town are busily engaged fending and plowing their farms. Fencing is a slow business as the rails have to be hauled from 20 to 40 miles. The planing mill at Pendleton has been doing a land office business, splitting poles in the center to be used as rails. This enables the farmer to get two poles for one in his fencing, and it is said that the split pole makes the better fence.

Summerville correspondence: Last week, while two sons of Mr. Thomas were out hunting, going through the brush, the gun was accidently discharged, seriously wounding the oldest boy in the leg, from the effects of which he died on last Sunday. A few days ago, while Mr. Charles Thompson, of Indian creek, was milking, one of the cows became frightened and dragged him some distance, breaking his collar bone and otherwise injuring him.

Eastern Washington.

The cold nights of the past two weeks have almost frozen out the grasshopper eggs which have caused such consternation in the Walla Walla country.

A move to establish a mail line between Wallula and Ainsworth, the new town at the mouth of the Snake river, is being made. The growing interests of Ainsworth demand the line.

Mr. Frary, of Columbia county, W. T., has introduced a bill in the territorial legislature which fixes the salaries of the officials of that county as follows: Probate judge, $600; treasurer, $1000; auditor, $1000 and no more from the county, and all fees allowed by law for other services; sheriff, all fees; county commissioners, $4 per day and mileage; assessor, $4 per day; coroner, fees.

Walla Walla *Union*: A week ago, Lorenzo D. Wright, who has been living in the Coppei country for several years engaged in farming and lumbering, drew $500 for wheat sold to Field & Kinnear, and not returning home to his partner as soon as he ought to have done, the Waitsburg *Times* raises the cry that he has been foully dealt with in this city. The cry is an absurd one. Wright will turn up all right, one of these days, en route for distant lands.

Idaho.

The county jail at Boise City is full.

Boise *Statesman*: A little girl of Mr. Riley Cox, about two years old, who lives down the valley some twelve miles, got a patent wire clasp-pin down her throat a few days ago and [illegible] so far that no relief could be given [illegible]

A Peach Tree Bears a Pumpkin.

[From the Harford (Ky.) News.]

One of the most remarkable of nature's curious freaks can be seen in the garden of Mr. Caleb Crow, of this place. It is nothing more nor less than a peach tree bearing a full-grown pumpkin. This tree bore none of its natural fruit this season; but, nevertheless, there hangs the healthy growing pumpkin, just as it has grown from the blossom to its present size, which is considerably larger than a man's head.

The Last of the American Kings.

NEW YORK, Oct. 28.—The *Herald* says: The extinction of royalty in North America by the death of, the last of the Montauk kings, a few months ago, was followed yesterday by the sale of the fragment of territory of which his ancestors were monarchs for generations before the first white man invaded Long Island. A resident of Brooklyn is the purchaser. One of the unsuccessful bidders at the sale is described as the agent of Tilden.

The vote of Hamilton county, Ohio, which includes Cincinnati, was as follows:

	Vote.	Maj
Foster, Rep.	29,578	3659
Ewing, Dem.	25,919	

The remainder of the ticket averaged about the same. Tilden carried the county against Hayes in 1876 by 582 majority.

Miss Cornelia Green of Jersey City, who was disappointed in love at eighteen, died a few days ago aged 75. During the period of her life from eighteen to seventy-five she lived in complete seclusion, and was never seen out of her house.

She Has Had Her Day.

[From the Cincinnati Enquirer, Dem.]

Either New York or Indiana must furnish the democratic candidate for the presidency. Poor Ohio is out in the cold.

The Cincinnati *Gazette* says "Barksdale's shotgun changed 100 votes in Ohio for every one changed in Yazoo county;" also that "the Ohio jury in the Kemper county cases found the accused guilty by 20,000 majority."

RECEIPTS OF GOLD.

The cause of the present remarkable flow of gold from Europe to the United States is a subject of general discussion, many erroneously attributing it to the supposed fact that we are exporting much more largely than in former years. But the figures of the bureau of statistics show that this is not the case. Exports of this year actually fall twenty-five millions below those of last, yet we have received this year nearly fifty millions of gold, while last year we received none at all. The receipts of gold, therefore, are not to be taken as an indication of an increased volume of trade. They are simply a change in the medium of foreign remittances. Up to a recent period Europe held a large quantity of the bonds of the United States and of the several states, together with railroad and municipal bonds in vast amounts. It was easier and cheaper to remit these evidences of indebtedness to us in payment of the balance of trade in our favor than to ship gold. Last year enough of such bonds were to be had to make gold remittances unnecessary. This year the bonds are not to be had, and gold comes in their place. Receipts of gold from Europe are evidence, therefore, that the greater part of our indebtedness to Europe has been paid, or in other words, that the evidences of that indebtedness have changed ownership by transfer from European to American hands. The comparatively small amounts of American bonds now in Europe are not to any great extent on the market, but are held as investments. The whole matter is explained by the simple statement that the large balances in our favor, on the foreign trade of 1877 and 1878, were settled by remittances of bonds, and the supply of these being nearly exhausted, the balances of 1879 are necessarily paid in gold. Were it not for our prohibitory tariff we would be getting cheap goods to supply our wants instead of this gold; and this would be a consequence of greatest value to our country, though perhaps unaccountable to those who look on gold as the principal and most useful form of wealth, and who cannot conceive that we want cheap commodities from foreign countries in return for exports, rather than gold. The country has abundance of money and has not abundance of cheap goods. The greater part of our exports is made up of cereals, cotton, tobacco, petroleum and provisions; that is, the produce of our soil. If, in return for this produce, we could get cheap steel rails and the whole class of commodities into which iron enters, we should obtain what is necessary for development of the country and the advancement of its prosperity. Gold is useful chiefly as a medium of exchanging commodities. It is not the foundation of industrial development. It is the creature of industry, not the creator of it. It is of use to one only as he parts with it, differing therein from almost every other form of wealth. Almost any person, it would seem, might be able to see that it would be far more to our advantage here to get commodities from England at cheap rates for our produce than to take gold for such produce and then pay out the gold as we must for the commodities at high rates to "protected" eastern manufacturers.

THE BAR TO ADMISSION.

In an article on Washington territory and her request to be admitted as a state, the Chicago *Times* grants the probability that by December, 1881, when the first representative from the state would take his seat, the population would be up to the representative ratio; that is, 131,000. The rate of gain for two years past makes this in fact practically certain. Last year the territory cast 12,647 votes for delegate, or fully three times the vote cast for representative in more than one district in the southern states. Again, it is a fact that fully a dozen states were admitted with less population than Washington territory has now. Oregon was one of these. Illinois, which now contains above three millions of inhabitants, was another. In 1818 Illinois was admitted, and in 1820, as shown by the national census of that year, she had but 55,162 inhabitants. Washington now has considerably more population than Illinois had two years after her admission; and as to wealth, Washington is immeasurably ahead of the Illinois of 1820. The same comparison might be made with many other states, with similar results. But Washington is not to be admitted now upon any showing however favorable as to population and wealth. No argument is worth anything against a certain political fact which is thus stated by the *Times*: "The republican candidate for delegate was elected last year by 1301 majority on a total vote of 12,647, which was equivalent to a majority of more than 37,000 in the state of Illinois. That will settle the question of admission by congress at the next session, and may settle it for a number of years to come, unless the people of the territory send a democratic delegate to Washington. The house is democratic, and will be until December, 1881, and the senate will be until March, 1881, and probably until March, 1883. There is no chance, therefore, for Washington before the presidential election of 1880, and probably none before December, 1882, no matter what the increase in the population of the territory may be in the meantime." When it is remembered that Oregon was admitted in 1859, with 20,000 fewer inhabitants than Washington has now, solely for the purpose of putting two pro-slavery democrats in the senate and of obtaining three electoral votes for 1860 to reinforce the south, then "solid" as now against the republican party, it is plain enough why Washington, strongly republican, will yet have to wait, till the political constitution of congress is changed. Owing to the slow methods by which the senate is changed there is little probability that Washington can come in as a state before 1885. The south, which rules the democratic party, will understand the significance of Gen. Grant's remark at Vancouver, that "we can't have too many states in this latitude."

AN EDUCATIONAL DISCOVERY.

Boston, the hub of learning, and all Massachusetts, are delighted with an alleged discovery in the methods of imparting instruction in the public schools, through which great educational reforms are promised. We are told that in 1873 the directors of the Quincy public schools reached the startling conclusion that there had been no perceptible improvement during the preceding ten years in the methods of instruction employed. Everything went on much as it had [illegible] system [illegible] that might be supposed to prevail in [illegible] where innovation is never tolerated and [illegible] ment is regarded as impossible. In the Quincy schools in 1873 the [illegible] had been examined by the [illegible] [illegible] while the school committee looked [illegible] [illegible] [illegible] ey of the entire system. The [illegible] was that the directors entered upon a new departure in the management of the public schools, and that departure is the subject of a pamphlet by Charles Francis Adams, Jr., in which we are favored with a full exposition of the Quincy system and its results.

Not to go fully into details, which would require great space, it may be enough to say that when the discovery was made that the children, though they could run over the rules of reading, of grammar, and of elementary arithmetic by rote, were unable to apply rules and principles which they could repeat with a kind of parrot facility, it was resolved to throw away the multiplicity of books and teach largely by oral instruction. The mind of the teacher was not to be made a kind of garret in which to stow away a lot of useless lumber in the shape of phrases that could convey no [illegible] meaning or impression till the thing itself was learned. The thing itself was to be taught first, and the nomenclature might then come afterwards. Children were not drilled in the alphabet, but learned words first, and a knowledge of particular signs of letters came upon them unawares. Reading at sight and writing off hand were made the basis of the new system. The old humdrum called parsing was discarded as unprofitable. Operations were performed before the whole school, and the relations of things shown by illustrations and examples, instead of ordering the classes to "get the rule." The results of this scheme of teaching are described as highly satisfactory. We are only astonished that the system is new to Quincy, and that some of the Boston journals hail it as a discovery. Schools "out west" discarded the old hum-drum methods long ago and adopted better. Had the directors of the Quincy schools sent their scribe to Portland, they might have obtained much information of the sort they needed, with less apparent trouble.

The democratic paper of Umatilla says the defeat of Ewing in Ohio serves the democratic party right. "A party," it says, "that has so little respect for itself and the rights of its members as to nominate such a fiend as Ewing for governor of a great state, should not succeed until they learn better." Now the fact is Ewing was nominated for the very reason for which this Oregon democratic journal condemns him and calls him a fiend; that is, he had fought gallantly through the war, and it was believed that he would get the soldier vote and checkmate republican stalwartism. And there can be no doubt that he got more votes by thousands than any representative of the old copperheadism of the Vallandigham type could possibly have obtained. Republicans didn't vote against General Ewing because they regarded him as a "fiend" for having fought on the side of the union during the war, but because he had abandoned the political company which once honored him, had become one of the northern partners of the solid south, and taken up with pernicious and dangerous financial doctrines. But on the other hand it was precisely for these reasons that he got the solid democratic vote of Ohio. It is not probable that the democratic national convention next year will declare that a man who fought for his country is a "fiend" on that account. Hence probably Gen. Hancock will be nominated for the presidency, and Oregon Bourbonism will have no choice but to support him.

The aims of a solid south have been dangerous only through a divided north, and a solid south will be no longer possible when the north fully resumes its rightful guardianship of the government it saved once before from these too unanimous gentry on the other side of the Ohio and the Potomac. Once the present conspiracy crushed, the next census will give such decisive ascendency to the republican states of the north, and especially of the northwest, that the south will lose all hope of restoring the rule of its ancient and effete regime, the old Bourbon oligarchy will gradually perish of inanition, and new political organizations based on new issues will take the places of those which will die with the confederate democracy of to-day.

Referring to the fact that one Edward Kerrigan has commenced proceedings to test the right of Kalloch, mayor elect of San Francisco, and of all other candidates of his party to their seats on the ground that they pledged themselves to accept salaries less than those now paid, which it is alleged is something in the nature of a bribe, the *Bulletin* "has no difficulty in concluding that Mr. Kerrigan is a citizen of the most delicate moral structure;" though he "does not aver whether he was bribed himself in this way to vote for the candidates in question, or whether he feared merely that the moral principles of other electors were undermined thereby."

A "steam navigation convention" was held a few days since at Cincinnati. Gen. Negley read a statistical report of the amount of commerce last year, in which he said the cotton crop last year was the largest on record, being 6,800,000 bales, seventy per cent. of which was exported. The grain crops of 1878 and 1879 have been simply enormous, the annual yield falling but little short of 400,000,000 bushels, of which 26 per cent. was exported. Great activity has marked the exportation of breadstuffs, and the movement of coal and iron, and the shipment of provisions to Europe from this country amounts to about six thousand tons daily.

Recently the Louisville *Courier-Journal* said: "We may lose Ohio, and we may lose New York, and if we do, heaven help us! But, in either event, or in both, the necessity for the old (presidential) ticket is rather increased than diminished. It will be for Mr. Tilden to say whether he can afford to make the sacrifice of another campaign."

A late dispatch gives the New York *Tribune* as authority for the statement that Gen. Arthur, chairman of the New York state republican committee, expresses a cheerful confidence in a plurality of something near 100,000 votes for Cornell, and a majority of 20,000 or 30,000 for the rest of the ticket.

There were no deputy marshals at the polls in the recent elections, and the "military intimidation" was merely in the minds of the roaring demagogues. But the party which was howling about these things was beaten all the same.

The distribution of such a work in the east is calculated to do the state great good in the way of educating the public mind in regard to the extent of the resources of Oregon, and to turn thither the tide of immigration.

ALARM OF FIRE.—Great excitement was occasioned yesterday afternoon about 2 o clock by the report that Mr Molson s brewery was on fire. An alarm was sounded from box ..., which brought the department out in short order. All the companies lost no time in repairing to the supposed scene of the fire ... approaching the brewery that structure ... was all right, the only smoke visible being that which issued from the stack. The cause of the alarm originated in a small barn which stands on D street between Ninth and Tenth. By some means the straw in the barn caught fire, but the flames were quickly extinguished before any damage was done. The barn is near the brewery, and from that circumstance the report was started that the brewery was on fire.

WALKING MATCH.—Messrs. G. S Smith and Geo W ... arrived here on the steamer *Elder* for the purpose of making arrangements for a walking match in Portland Turn Halle has been secured by these gentlemen as the place where the contest in pedestrianism will take place. The match will be between Miss Lily ... of Montreal, and Miss Alice Donley of San Francisco. Miss Donley was the winner of the fourth prize in the late ladies ... in San Francisco. The females will arrive by the steamer *Oregon* for Portland. The match will commence on Saturday, Nov. 8th.

SOCIAL MATTERS.—East Portland Social club was organized by the election of the following officers: President, J N Wheeler; secretary, R. C. Allen; treasurer, Henry ... They decided to give their first party at Odd Fellows' Hall on Thanksgiving night, and the following committees were appointed: Arrangements—W G Kerns, Jas. ..., Geo. Allen and J N Wheeler; ... R. C. Allen, H Jones A B Cox and ... The club has also engaged Odd Fellows' Hall for New Year's night, when their annual masquerade will occur

CONSECRATION OF BISHOP JUNGER.—Father Junger was yesterday consecrated as a bishop of Vancouver by Archbishop Blanchet of this city, assisted by Bishop Blanchet of Vancouver. The ceremony, which was the most solemn ever witnessed in the territory, commenced at 9 A. M. and lasted four hours. Many priests from Portland and members of the Catholic church visited Vancouver to witness the ceremonies The congregation presented the newly ordained bishop with a handsome gold chain and cross, made to order by J. Van Beurden.

The Oregon Furniture Company

Home made goods in Oregon used to mean very ... work but those who have seen the display of furniture made by the Oregon Furniture Manufacturing Company in this city in the north gallery of the pavilion will at once admit that those who are satisfied only with the finest and best need not go away from our state to find either the material or the workmen to get it up

THE COMPANY

Was organized about five years ago though its president Mr Samuel Lowenstein has been engaged in the furniture trade in Portland for eighteen years understands it thoroughly and knows just the kind of goods in this line that are adapted to the wants of our people He is fully posted in all the minutiae of the business and is thoroughly skilled in the art of manufacturing the goods which he sells Mr William Kapus secretary of the company is thoroughly competent in the discharge of his duties, active energetic obliging and attentive to his business and to the company's patrons By fair dealing and truthful representations concerning their goods the company has in a few years built up a trade which extends to all parts of the northwest coast and is rapidly growing in volume

THEIR EXHIBIT

At the fair occupies three large rooms in the north gallery, and throngs of visitors are constantly gazing at the rich display Ascending the stair way to the left of the west entrance and passing forward a short distance within the first railing we find a library set which is a marvel of beauty fine finish and durability This set is made of Oregon ash elaborately carved and upholstered with leather in a most substantial manner It consists principally of a cylinder desk and book cases Grecian lounge of elegant pattern easy chairs sitting chairs and rockers, and a very handsome ottoman with a wrought silk cover and a puffed border of worsted and satin

THE PARLOR SET

Is one of the finest ever made or shown in the city and for beauty of design elegance of appearance and fineness of workmanship cannot be excelled by any of the celebrated eastern factories A handsome piece in this set is an Egyptian easy chair, the upholstery of which is richly embroidered by Mrs George Weidler, the chair being made and upholstered by the company for that lady The set contains also sofas other easy chairs large and medium sized rockers, upholstered in the most artistic manner with raw silk covering and puffed satin borders. In the rear center of this magnificently fitted up parlor stands a large mirror of French plate glass with an elaborately figured gilt frame. The center table comports in elegance of style and richness of ornamentation with the rest of the set and supports, in frame the medals awarded to the company at the Philadelphia centennial, exposition universelle at Paris, and other exhibitions at which their goods have been shown

THE BEDROOM SET

Which is displayed in the third apartment is of the old English style, made of black walnut and veneered with burl of the same wood, all richly carved and ornamented with heavy and elegantly designed mouldings It embraces bedstead bureaus, dressing cases, chairs, etc, and a large French mirror on a pier of the finest polished marble The whole set is one of the most attractive objects in the pavilion and combines all that is required for elegance or comfort, the bed being covered with a rich marseilles spread, and the pillow shams of fine lace made by Mrs. Harry Bresden In this apartment is a most beautiful foot stool with a bead and silk work cover wrought by Miss Hattie Jagger and upholstered by the Co for her There is also an elegant bath tub with the latest style faucets and lined with copper so prepared as to receive a polish as bright as silver the woodwork being of solid black walnut It was gotten up at the establishment of Mr John Barrett of this city who is well known for his fine work in this line

THE DRAPERY AND CARPETS

In the three departments of the Oregon furniture manufacturing company's exhibit are all very handsome and excel in richness any ever before shown in the state The lambrequins are of raw silk of beautiful color and figures of rare design The curtains are of the finest Swiss lace, while the floors are covered with carpets of body brussels of elegant pattern and of rich colors, to correspond with the furniture of the respective rooms The arrangement of the drapery itself or the "make up" is most neatly done and is evidence of the skill of those employed by the company in catering to the taste of lovers of the beautiful

The ash set shown at the fair is part of the furniture for the Umatilla house, at The Dalles which the company is furnishing through it They have made sixty one bedroom sets and sold brussels carpets for the entire house They have just finished two fine ash office counters for the hotel which they intended to exhibit but could not secure sufficient room in the pavilion The counters will be shown at their salesrooms in a few days The bedroom set has been sold to a prominent railroad man in this city

The ratan furniture shown by this company and made at the Haywood factory, in Massachusetts, is also very handsome and though very light, is remarkably strong and durable making it for many uses, the best that can be bought

The factory of the company is situated on the corner of Front and Madison streets where from 50 to 60 men are constantly employed many of them being the most skilled that could be found in Europe and the east and engaged by this firm for fine work here This factory turns out a very large quantity of such work as we have just described as one can see by a visit to the extensive store and salesroom on the corner of First and Yamhill streets where enormous quantities of furniture of every kind are kept constantly on hand and much of it will compare favorably with the sets now on exhibition in the pavilion and all of it first class of its kind On account of the competition of importers of eastern furniture the company has put its prices down to the lowest living figures and whatever is paid to them for their product is disbursed in this city to their workmen and for material thus keeping the money at home and adding to the business and permanent wealth of the country Such establishments deserve support and liberal patronage from all who admire the good, the useful or the elegant and who wish to see the country prosperous by the growth of home industries

J. B Congle's Display

Of saddles harness, whips etc. from his immense store No 105 Front street occupies the entire northwest corner of the gallery and is entitled to especial credit for the reason that it contains only specimens of stock always on hand Not a single piece of work on exhibition was made especially for the fair The display shows that Oregon can produce as good and as handsome saddles and harness as any other state in the union and that no house in Portland surpasses that of Mr Congle in quality or style In saddles there is shown Mexican Morgan, English and California styles One a full rigged ... stamped Mex ... with best oak tanned skirting is particularly noticeable on account of its strength and beauty In ladies saddles ... very handsome styles are shown The display of harness embraces everything from heavy ... wagon to the ... and ... rubber ... harness Mr Congle also shows a number of fine ... and horse blankets of excellent manufacture A show case ... of the display is filled with riding ... spurs ... to ... INTERNATIONAL FISHERY EXHIBITION.

PORTLAND Oct 28 1879

TO THE EDITOR OF THE OREGONIAN

I have the honor to enclose herewith for publication a prospectus of the international fishery exhibition to be held at ... of ... in April next

Deeming it a matter of importance as regards the general development of the ... and the industries of Oregon ... that at least some of the products of our fisheries be represented at the exhibition I am willing to receive and forward such articles as may be sent ... by parties wishing to exhibit ... [illegible] ... Interested ... [illegible] ... the harvest

[illegible]

Under the patronage of ... the Crown Prince of ... [illegible] ... Fishery Exhibition to be held in Berlin ... April ... [illegible] ... culture

A prospectus of the Fishery Exhibition having been issued in English and French as well as in German copies of which may be obtained gratis at the above address the committee relies on the kind offices of ... at ... [illegible] ... for its distribution and on the foreign press to assist in making the programme widely known

Under different groups and classes the exhibition will comprise ... parts of the world referring to ... and fisheries and more particularly aquatic animals of all kinds alive and stuffed preserved in alcohol or represented in pictures products of aquatic animals fishing boats of every kind or models thereof fishing craft of all nations, models or representations fishing tackle and netting in different stages of preparation machinery and implements used for working up the raw material piscicultural apparatus of all kinds including incubators models or drawings of well known fish breeding establishments, and contrivances for protecting or improving the breeds of aquatic animals aquaria appliances in use for keeping and conveying freshly caught aquatic animals and for the preparation and preservation of the produce of fisheries Models of fishermen's dwellings and costumes, matters and objects referring to the scientific investigation of different waters in connection with the fish inhabiting them objects and works referring to the history of fishing the literature of fishing ... fish culture and statistics of fisheries also maps showing the geographical distribution of fish

The conditions named in the prospectus are very favorable to exhibitors The committee of the fishery society will defray all expenses connected with the general management and internal arrangement of the exhibition also the expense of carriage from the Berlin terminal to the building of the exhibition At the close of the latter the objects will be returned to the exhibitors free of charge and when they are of a specially interesting or important nature the committee is not disinclined to defray the cost of transport to as well as from the exhibition Exhibitors laying claim to have the carriage back thus paid should apply to the committee

The exhibition will be held in Berlin in the great hall and gallery of the new agricultural museum and adjoining localities it will be opened in the second half of the month of April, and remain open at least four weeks

In the case of objects of special importance prizes will be awarded by an international jury the necessary particulars respecting the same being published in due course

The committee also hopes to find it possible to offer pecuniary awards for notable achievements in connection with fishing—the recipients to be exclusively professional fishermen

COMMUNICATIONS.

Communications received from all parts of the world testify to the warm interest taken in the exhibition in foreign and particularly in transatlantic countries and the applications for space from abroad are such as to justify the belief that the exhibition will be of a truly international character In most instances the governments of the different foreign countries have promised to give the enterprise their hearty support

Illustrative of the fisheries of all quarters of the globe, it is hoped the exhibition will be the means of stimulating inquiry and introducing improvements in the various departments represented and more especially that it will tend to increase the interest taken in the preservation and replenishment (by a rational system of pisciculture, etc) of waters suitable for fish

As far as lies in the committee's power these objects will be kept steadily in view, and in furtherance of its efforts in the direction indicated it counts with confidence on the cordial co-operation of friends abroad

Applications to exhibit objects should be forwarded to the address given above before the 1st of January 1880 The committee begs, however that exhibitors will not wait until that date—the last on which applications can be entertained—but supply the needful particulars as early as possible, and thus allow of proper preparations being made in due time

DEMOCRATIC SCHEMES.

An Interview with the Editor of the Cincinnati "Commercial"—Counting Out Next Year.

Cincinnati Cor. New York Tribune.

Speaking of the democratic schemes, Mr Halstead said: "The democratic leaders are especially strenuous about the supervisors law. You know the history of the committee they sent here to perfect facts and manufacture testimony to sustain Thurman's charges. The memorialists had their orders by circular. All this clamor about supervisors means that the democrats claim that one ward under the control of criminals shall control the whole city and carry a state for the solid southern purpose, whatever it is. If they can't succeed, the democrats are setting up a pretext, and cultivating it day by day, to enable their congress to throw out the vote of republican states where supervisors are employed. Congress is to elect the next president. The whole extra session should be read by this lamp. They are preparing to change the rules so as make the house a revolutionary committee. Hunton's bill about counting electoral votes absolutely refers the presidential election to congress in terms almost as plain as any that can be produced. Of course, this is with a purpose. Democrats claim both houses of congress, and say, 'You counted your man in, now we will count our man in;' and so they will."

"Then you don't believe there is any chance of securing a republican president next year?"

"No; the democrats will use Congress provided they can secure the house, and they already have the organization so as to leave the republicans the alternative of submitting to a technical legality—manufactured to order by the confederate brigadier caucus—or accepting civil war. The only chance of saving the country from the completion of confederate rule over the whole United States is for the republicans to elect the next house. That will block the game, but we shall lose the presidency."

"It seems to me that the very apprehension you express lies at the bottom of the Grant movement. People say that the confederate democracy in congress would not dare count Grant out if he should be elected."

"That is a mistake. Grant would be no more obstacle than John Smith. The Grant enthusiasm does well as a matter of personal compliment to a great soldier returning from abroad, where he has been highly honored; but when the republicans get down seriously to the business of selecting a candidate they will hesitate about offering the country no other escape from confederate rule than a third term of Grant, with the promise of a fourth, and so on down the broad road the republicans have traveled. To nominate Grant would be to take the ridicule off the democratic charge of a threatened change in our form of government and make it a momentous matter. The second sober thought will come in good time, and the thing that now seems certain will be found impossible. The common sense of the country will be against the third term, with all it implies. The republican leaders cannot afford to abdicate now and forever in favor of Grant. Not one of them, with possibly the exception of Conkling, would have the dignity of a ward politician if he should again be president. They would be submerged, and never emerge from the flood, and Blaine would not be bigger and better than a fly on a bull's horn, and he is a man of great stature as he stands. The republican party would be ripped up by a third term nomination. It is the one way to do the party to death. Besides, Grant would be counted out the same as any other man. He is only a simple citizen. He would have to submit to the congress of the United States, now the creature of a confederate committee—and this very degradation can be traced to Grant's administration. Still, he is expected to serve as a scarecrow to overpower rebels by moral and physical fright. This is neither republicanism nor manliness. It is childishness and mischievous. Grant's reception is all right, and is no more than he deserves. I am glad to see him get his fill of glory; but it don't follow that the country must be tied up in a rag and presented to him as a little testimonial of our affectionate helplessness."

The local wheat market partakes of the depression noted in our advices from abroad, and buyers are doing less than at any time since the busy season began, as holders have not yet come to the conclusion to make the concession demanded. Quotations depend more generally than heretofore upon the party from whom they are sought, holders standing out for $1 95 or above, when buyers are unwilling to pay over $1 85 or $1 87½. The market is unsteady and a few days time may develop important fluctuations.

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast.

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

HAS RETURNED AFTER AN EXTENSIVE tour of the Eastern States, for the past four months. The Doctor while absent visited all the principal Medical institutions in the large cities of the United States, and comes back with all the modern methods, instruments and appliances known to the most scientific men in the profession. The Doctor has also brought charts and manikins to illustrate his lecture.

DR. PAUL M. BRENAN has been fifteen years lecturing on the Laws of Life and Health. In his private and public lectures he has taught men and women the true system of life, how to be healthy and happy, if they would only be guided by his wise counsel. But all cannot hear his delightful and instructive lectures, nor can he tell everything necessary for suffering humanity to know from the public rostrum before a promiscuous audience. There remains much to be learned from him as his experience extends over broad fields of active professional life. This knowledge so necessary to the welfare of the sufferer can only be gleaned by private Professional Consultation at his office.

His experience in the various parts of Europe and America give him such opportunities of learning the delicate diseases which the human family are prone to, their mode of treatment and permanent cure, as no other physician on the Pacific Coast can claim. He has not only treated these diseases most successfully, but has made them a life study, as a few moments' consultation will prove.

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHEA, or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two-thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

IT IS TRUE

That persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

Those who call in time upon DR. PAUL M. BRENAN need have no fear but what he will restore them to perfect health and vigor, make their body pure and their mind content, if they will only follow his advice and treatment.

Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail. No Quack Nostrums used, no shop treatment, no false promises.

Everything strictly confidential under all circumstances.

Consultation Free, and a list of printed questions sent to those living at a distance who cannot consult him personally, and fine Surgical Operations performed.

KING OF THE BLOOD

THE MOST THOROUGH PURIFIER OF THE BLOOD YET DISCOVERED.

Cures all Humors, from a Common Eruption to the Worst Scrofula.

It purifies the Blood.
It invigorates the Liver.
It regulates the Bowels.
It strengthens the Stomach.

It gives vivacity in place of lassitude; cheerfulness in place of gloom, and robust vigor in place of debility.

Dyspepsia, Biliousness, Disordered Liver, Constipation, Nervous Affections, General Debility, in short all the numerous diseases and discomforts caused by impure Blood are speedily conquered by this powerful corrector, the chief and sovereign of all ancient or modern medical discoveries—KING OF THE BLOOD.

ITS NAME IS ITS BEST DESCRIPTION, as it is a royal dispenser of the blessings of health, and vanquishes the foes that lurk in the blood.

It banishes PIMPLES, SALT RHEUM, SCALY ERUPTIONS, ULCERS, SCALD HEAD, FEVER SORES and all SCROFULOUS DISORDERS.

It checks CONSUMPTION in its early stages. It has frequently cured it when advanced.

It disperses TUMORS and CANCERS without the Surgeon's knife.

It cures DROPSY, general or partial.

It cures FEMALE WEAKNESS and DISEASE.

It reduces in a safe and effectual manner all swellings, external or internal.

It eradicates the effects of Mineral Poisons, and establishes a sound constitution.

Many certificates, much further information and full directions for using, will be found in the pamphlet, "Treatise on Diseases of the Blood," in which each bottle is enclosed.

Price $1 per bottle containing 12 ounces, or 40 to 50 doses. Sold by Dealers in medicine.

TRADE N. B. MARK.

OVERALLS

Are sold by leading dealers in this city and on this coast, because—

"THEY CONTAIN THE BEST MATERIAL, ARE SEWN WITH LINEN THREAD, And ARE THE MOST PERFECT FITTING."

In putting on or taking off Overalls, the strain on the crotch often causes them to rip; and to remedy this we are using a continuous strip of cloth, extending the entire length of both sides of the Overall from the crotch and secured thereto at every point. Under these improvements, we claim that our Overalls will stand greater strain than any other make in the market.

Observe the Trade Mark and take no other.
